Nina Hackel

Dream kitchens make kitchen dreams come true

Nina Hackel designed her first kitchen for her father's kitchen design company when she was eight years old. Her creativity and passion for kitchen design hasn't cooled over the years. For the last 20 years Nina and her team of five designers have been creating award-winning kitchens and baths at **Dream Kitchens** of Nashua, New Hampshire.

"So much of our work is done in Boston and the surrounding towns that we consider ourselves to be a locally-owned family business," Hackel says.

"Dream Kitchens is not like other remodeling companies," says Hackel. "We don't just replace kitchens and baths, we create new lifestyles." Hackel, a gourmet cook and mother of two, believes in creating spaces that make every multi-tasking mother's life easier: a place where she can keep an eye on the kids, their computers, the TV—and do the dishes at the same time.

Over the last 20 years, Dream Kitchens has earned more than 150 awards for best value and design, and has had projects featured in national media from HGTV to *Woman's Day* magazine. What sets the company apart is more than just the ability to design beautiful kitchens, but its pledge to increase storage and counter space by at least 30 percent.

After an in-depth consultation, each client receives three unique designs for their project, guidance as to the pros and cons of each design, and objective opinions to help clients make the necessary decisions throughout the project. "Our designers pride themselves on their creative ability to meet the needs and wishes of their clients, solving challenges of space, style, and budget." says Hackel. "While we give our opinions and make suggestions, the client has the last word. It is their kitchen."

> ***"Dream Kitchens is committed to making your dreams into reality."***

Dream Kitchens' designers are all well-versed in many style options from traditional to contemporary. They can provide cabinetry, countertops, sinks, faucets, decorative hardware, accessories, bath plumbing, custom closet systems, and can create storage opportunities for every room in the house.

To this end, Dream Kitchen has many quality checks. They check the order 3 times to ensure that you get the correct cabinets for your project. They carefully quality check the finish and the quality of the cabinets as they are delivered, and they have a technical expert come to every install to ensure the install is to the standards of Dream Kitchens. The installation and all the materials have a 3 year warranty.

Dream Kitchens is committed to making your dreams into reality.
